Peugeot Boxer 17-Seat Minibus Lite WAV – With Ramp

Exterior – long-wheelbase Peugeot Boxer minibus conversion

The **Peugeot Boxer 17-Seat Minibus Lite WAV** is designed for organisations that need to transport larger groups while accommodating a wheelchair user when required. Combining generous passenger capacity with a lightweight wheelchair-accessible conversion, it is a practical option for schools, care providers, charities, community transport operators and other organisations requiring flexible group transport.

Based on the long-wheelbase Peugeot Boxer platform, this minibus provides seating for up to **17 occupants (including the driver)**. Removable rear seating and a full-width lightweight access ramp allow flexible configurations for wheelchair passengers when needed. Practical features include an automatically extending passenger entrance step, easy-clean flooring, grab rails and opening side windows.

- Driver and passenger airbags
- Active Safety Brake / AEBS (specification dependent)
- ABS with Electronic Brakeforce Distribution
- Electronic Stability Programme (ESP)
- Hill Start Assist
- Reversing sensors / camera (specification dependent)
- Seat-belt warning systems
- Emergency roof hatch exit
- First-aid kit and fire extinguisher provision points

Important Information

The images, specification and technical data relating to this vehicle – and displayed in this document – are compiled from manufacturer data, converter information and publicly available sources for guidance purposes.

Data is sourced from the motor vehicle manufacturer and specialist converters and is updated to ensure it is as accurate and current as possible. Please note that manufacturers and converters are able to change the specification and technical data of a motor vehicle or conversion without prior notice. Commercial Vehicle Contracts Limited is not responsible for the accuracy of the specification or technical data displayed in this document.

The specification may include default manufacturer factory-fitted options and conversion features. Exact equipment levels can vary between individual vehicles and converters.

The images displayed are for guidance only and may not reflect the specific model quoted. Images may also include non-standard features or exclude standard features of the model quoted.

Wheelchair-accessible vehicles must be configured and used in accordance with the approved restraint systems and the converter's instructions. Always verify the exact wheelchair capacity, restraint equipment and seating layout of the individual vehicle before use.

Licensing requirements (including whether a D1 entitlement is required) depend on the final plated weight and the specific conversion approval. Operators should confirm the current legal requirements for the vehicle they intend to operate.

If you have any questions relating to a specific piece of data then please contact your account manager on **01424 863 456** for guidance.
